

THE "CHALLENGELAUNCH" 7DAYCHALLENGE

DAY 6

Scale It

Today's action item is Scale It. One of the most important things to do is get market feedback on your Challenge. Scaling isn't about creating more items in your Challenge, it's about fine tuning and testing what you already have.

After watching today's video, write down your WIL for something you recently did. This can be for a launch, a daily process in your business, or something you recently accomplished. This allows you to practice debriefing anytime you ever complete a launch, so you'll be able to scale and fine tune things for the next time.

THE "CHALLENGE LAUNCH" 7 DAY CHALLENGE

Think of a recent accomplishment, project, or launch you completed.
What did you do well?
